OBJECTIVE

Highly motivated and dedicated web developer with a strong drive to push boundaries and commitment to continuous personal and professional growth. Seeking opportunities to apply my skills and contribute to the development of exceptional web experiences in a collaborative and inclusive environment.

PROJECTS

PROJECT MANAGED — *Full-stack web application for daily task and project management. (Next.js, TypeScript, SCSS, Prisma)*

- Implemented CRUD operations (add, read, update, delete) support for tasks and projects.
- Integrated user authorization using JWT.
- Utilised middleware in the edge runtime to handle session management by saving and accessing cookies.

TINY POST — *Full-stack minimalist blog web application (Next.js, TypeScript, SCSS, Prisma, React-Query)*

- Enabled users to publish and share their own blog posts while interacting with others using a commenting system.
- Implemented sign in with google account using NextAuth/Auth0.
- Enhanced error handling with React Query + React Hot Toast.

DICTIONARY WEB APP — *Dictionary web application built with REST API (React, styled-components, Axios)*

- Integrated a dark/light theme switcher to enable users to switch between different color schemes dynamically.
- Developed a dropdown menu for switching the body font.
- Applied global styles and themes to manage consistent styles using styled-components library.

EXPERIENCE
